Why are International Study Centres a great choice for you?

Why Study Group?

The highest rankings
12 of the UK universities we work with rank in the **top 50** in *The Times* and *The Sunday Times Good University Guide 2019.*

8 of the universities we work with in the UK and Europe rank in the top 200 in *The Times Higher Education World University Rankings 2019.*

The widest choice of study locations
With **17** English-speaking International Study Centres throughout the **UK**, **Ireland** and **Holland**, you can be sure we have the right academic environment for your students.

A course for every student
We develop our university preparation courses in association with the universities we work with. Courses are designed to provide your students with a route to their preferred degree subject to help them **pursue their dream career**.

Gain valuable work experience
Many of the universities we work with **provide work placements** during degree courses. Ireland and Holland also offer the opportunity to **stay and work after graduation**.

Designed with your career in mind
The majority of our courses include an **integrated employment skills programme - CareerAhead** - to equip students with the skills you'll need in your chosen career. The programme extends into university study to help students find a great job when they graduate.

The largest choice of degrees
Whether students want to specialise in a particular field or study two subjects with a joint honours degree, we can offer **progression to more than 1,000 degrees**. Our students go on to study business, computing, management, engineering, fashion, creative arts, hospitality, media, politics and more.

Successful and satisfied students
Our International Study Centres boast excellent progression rates to host universities and **outstanding student satisfaction rates**.

What are International Study Centres?

International Study Centres are dedicated spaces (on or close to the campus of each university) where we help students prepare for university study and adjust to life in the UK, Holland or Ireland. Our experienced staff will give students a warm welcome, arrange social and orientation activities, and provide the high quality academic and English language tuition they need to prepare for degree study.

What are the benefits of degree preparation programmes?

Not every education system is the same, so some international students find it tough to complete the presentations, essays and independent research required by UK and European universities. A pathway programme will introduce them to the type of learning they can expect if you progress to your degree.

Taking a pathway programme at an International Study Centre will:

- Help students build confidence in their English reading, writing, listening and speaking skills
- Equip students with the academic knowledge and study skills they will need on the degree programme
- Help students develop key career skills so they can find their dream job after graduation

Pathway programmes at International Study Centres include:

International Foundation Year

For students who need more support with their academic skills or English language level. This two or three-term programme will help them settle into a new education system, develop the English language skills and subject knowledge needed to progress to the first year of an undergraduate degree.

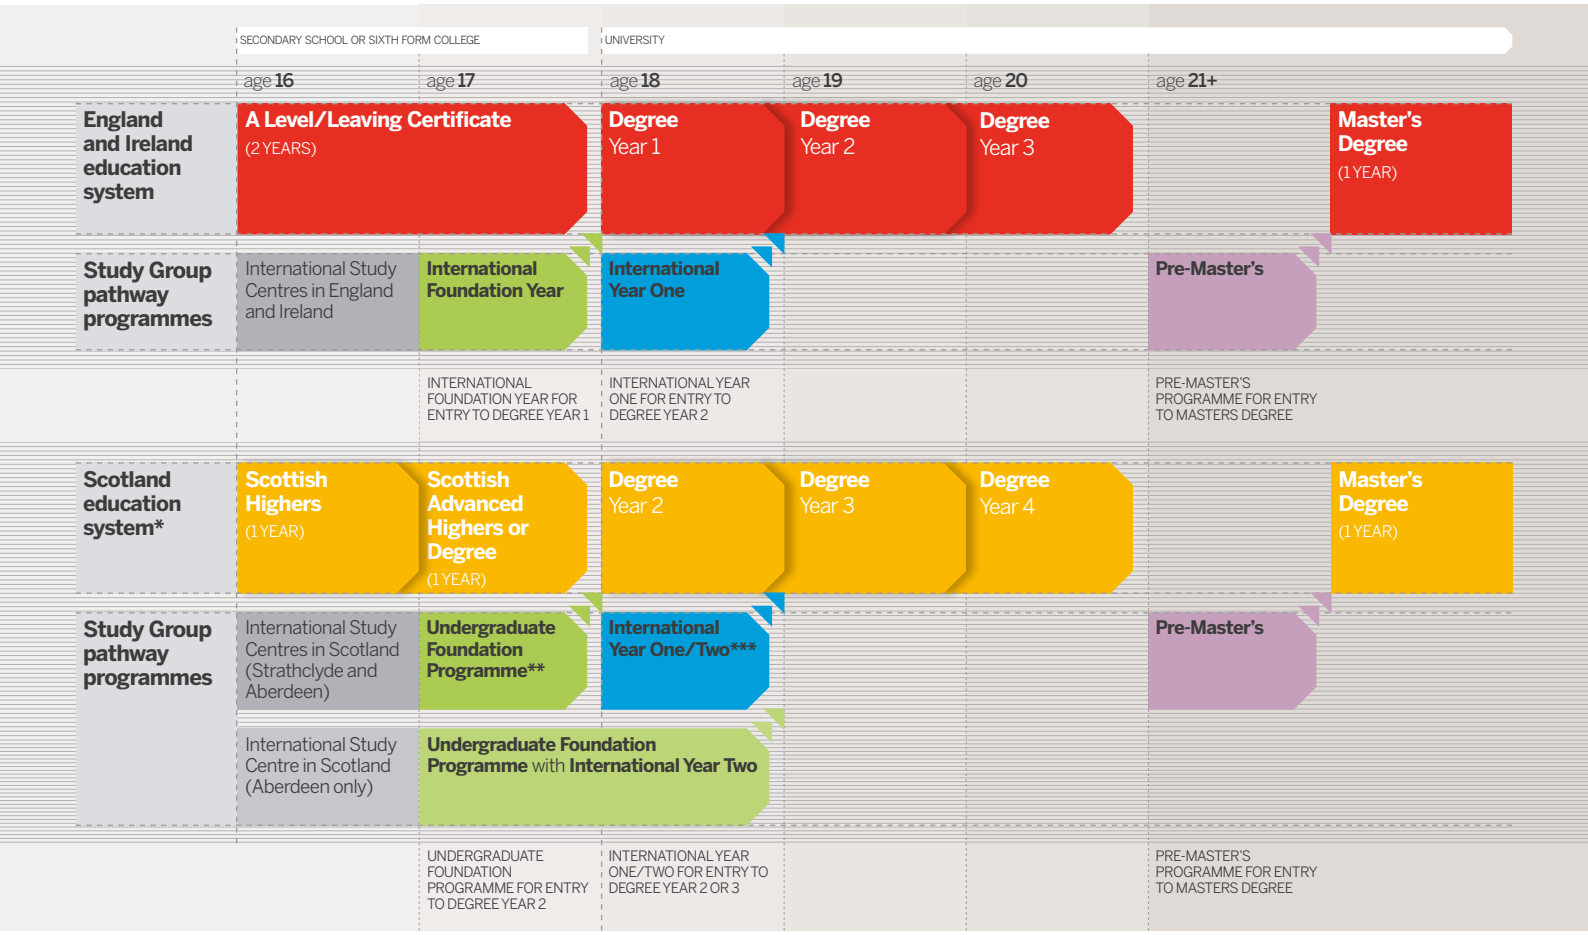
International Year One

For students with good grades and an intermediate English level. This two or three-term programme - equivalent to the first year of an undergraduate degree - will boost students study skills and prepare them for entry into the second year of a degree programme. This means they get extra support, without adding extra study time.

Pre-Master's Programme

For students who hold an undergraduate degree or in some cases, a diploma, from a university in another country, this two or three term-programme will help them to develop high-level academic English language, study skills and specific subject knowledge before they progress to your postgraduate degree.

How our pathway programmes prepare students for success



** Please note that most degrees in Scotland are four years.*
*** Following the Undergraduate Foundation Programme, students normally progress to the second year of the 4-year degrees, depending on the grades achieved or the progression aim.*
**** Strathclyde's International Year One students progress to the second year of a 3-year degree, and Aberdeen's International Year Two students progress to the second year of 4-year degrees.*

International Study Centre pathway programmes

Each International Study Centre pathway programme comprises three components to meet the specific needs of international students. The three components of teaching are:

- English language – to improve reading, writing, listening and speaking skills to help students gain all-round confidence in using degree-level English.
- Academic subjects – students can select different subject areas based on the degree programme they would like to progress to.
- Study skills – including essay writing, critical thinking and giving presentations.

The majority of our courses include an integrated employment skills programme, **CareerAhead**, helping students to develop the skills needed to succeed in your chosen career.

Sample **International Foundation Year** Timetable

	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
MORNING	ACADEMIC MODULES (3 HOURS)	ACADEMIC SKILLS MODULE (1 HOUR) ENGLISH AND SKILLS (1 HOUR)	ACADEMIC MODULE (1 HOUR)	PERSONAL TUTORIAL (1 HOUR) ENGLISH AND SKILLS (2 HOURS)	ACADEMIC MODULE (1 HOUR)

Please note that this is a sample timetable and will depend on your chosen programme and study destination. Some centres may also run early evening sessions.

The widest choice of universities in a variety of locations

We offer an exciting choice of study environments in the UK and Europe.

City locations provide plenty of culture and transport options. Campus locations offer space and fresh air. Every university has its own unique personality, so we are sure that each and every student will find the perfect fit to achieve their goals.

Semesters rather than terms. Please refer to the individual International Study Centres website for full details.
#6-week course designed for students who need to raise the level of their written English. This course starts at the same time as the academic course.
†Intake only available for students aiming to progress to Economics, Marketing or Accounting.
^Places are limited on Finance and Management route to the top five students for each subject area. Students will be required to select an alternative degree option on application as a second choice - either Economics, Marketing or Accounting. To progress to a Finance and Management degree students will need to successfully complete the programme, achieve the required grades and be one of the five students with the highest grades. Students who do not achieve a place on their first choice of degree course will be able to progress to their second choice as long as they have achieved the required grades. Should there be more than five students achieving the highest grades, other factors will be taken into account, specifically consideration of the final Module Assessment Board results in terms of academic improvement and attendance records.
**Subject to approval.*

International Foundation Year

University of Aberdeen
International Study Centre

One of the oldest universities in the United Kingdom, Aberdeen is rich in heritage whilst continuing to be at the forefront of discovery and change.

The University of Aberdeen ranks in the top 200 universities in the world. Founded over 500 years ago, students at Aberdeen benefit from a long history combined with a modern approach to teaching and employability. As well as excellent academics, the University offers a friendly, vibrant and international student community, making students both local and international, feel instantly at home.

The benefits for you

› Expert staff dedicate themselves to important research and discovery
› Scottish undergraduate degrees typically take four years to complete, giving you the opportunity to explore your subject and specialise in what interests you
› Large campus with everything from one of the largest health campuses in Europe to Olympic-standard sports facilities
› Aberdeen has both big city amenities and easy access to countryside and coastline, ensuring there is something for everyone.

By train to:
Edinburgh: 2 hours 30 minutes
Glasgow: 2 hours 40 minutes

Nearest airports:
Aberdeen

University of Aberdeen named
Scottish University of the Year
(The Times and Sunday Times Good University Guide 2018)

Ranked
26th in the UK
(The Times and The Sunday Times Good University Guide 2019)

Ranked
158th in the world
(THE World University Rankings 2019)

95.8%
of graduates go on to work or further study within 6 months
(DHLE survey HESA 2017)

Coventry University London
International Study Centre

Located in the City of London, Coventry University London is serious about business and your future employabilty.

From the design of the campus through to the work experience opportunities open to you, your employability is their priority.

Courses are lively, interactive and relevant to the international business world. With over 1,800 students from more than 80 different countries, you will truly be a part of a global learning environment.

The benefits for you:

› The dedicated Careers, Employability and Enterprise team will work with you to prepare you for internships or other work-related projects, such as consulting projects, an entrepreneurship project and more

› Study your degree in the City of London, one of the worlds most important financial districts, as well as being close to many major landmarks and attractions

› The university works with a number of well known employers including Deloitte, Lloyds, Banking Group and Jaguar Land Rover. Offering great internship opportunities, guest speakers and business interaction for students.

› Six leading Master's programmes now offering Extended Professional Practice, giving the opportunity for a longer internship or project as part of the course

› Small class sizes offering a tailored experience to students.

Nearest airports:
- London City
- London Gatwick
- London Heathrow

Coventry University is ranked **13th** **in the UK**
(Guardian University Guide 2019)

Coventry University voted
University of the Year
for Student Experience
(The Times and Sunday Times Good University Guide 2019)

Awarded Gold rating in the new UK government **Teaching Excellence Framework (TEF)**

Top 10 UK rankings include:

4th **HOSPITALITY, EVENT MANAGEMENT AND TOURISM**

6th **ECONOMICS**

(Guardian University Guide 2019)

Developmental Psychopathology	
Electronic and Electrical Engineering	
Mathematical Sciences	
New and Renewable Energy	

†Places are limited on Finance and Management route to the top five students for each subject area. When you apply to the International Study Centre you will be required to select an alternative degree option as your second choice - either Economics, Marketing or Accounting. To progress to a Finance and Management degree you will need to successfully complete the programme, achieve the required grades and be one of the five students with the highest grades.

If you do not achieve a place on your first choice of degree course you will be able to progress to your second choice as long as you have achieved the required grades.

Should there be more than five students achieving the highest grades, other factors will be taken into account, specifically consideration of the final Module Assessment Board results in terms of academic improvement and attendance records.

Progression grades required are as follows: English grade: 65-70% depending on the degree. Overall grade: 60-70% with minimum 50-60% in all skills depending on the degree.

Holland
International Study Centre

Located in Amsterdam, the Holland International Study Centre provides pathways to leading Dutch universities where degrees are taught in English.

International students can gain a high-quality education for low tuition fees, and have the opportunity to stay and work after study.

Students can study at one of four prestigious universities across the country offering a wide range of world-class degrees taught in English. Each university caters to different student preferences from type of subject to big city or small campus university.

The benefits for you:

› A choice of highly-ranked universities
› Lower tuition fees than the UK or USA
› All programmes are fully taught in English
› 95% of Dutch people speak English, so communicating with local people is simple
› Studying in the heart of Europe enables you to explore many different countries
› Holland offers post study work visas and the opportunity to find a good job after graduation

Nearest airport:
Amsterdam Schiphol Airport

1 Holland International Study Centre

To progress, students need to achieve the required grades. As a guideline, students need to achieve 50% in English and between 60% and 65% overall (depending on their chosen degree). For full and up to date information, visit Kingston.ac.uk/isc

Lancaster University
International Study Centre

Lancaster is ranked in the top ten in the three major UK league tables, including maintaining 6th place in The Times and Sunday Times Good University Guide 2019. Lancaster has also been awarded a TEF Gold rating based on high quality teaching, excellent facilities, and the aspirational and varied careers students go on to.

You can broaden your knowledge outside of your core major by studying additional minor subjects. Research-led teaching gives you access to leading academics, and encourages independent thinking. Lancaster has a self-contained campus set on a beautiful 560-acre parkland site just three miles from Lancaster City Centre.

The benefits for you

- Ranked 3rd in the UK for graduate-level employment in the *Times and Sunday Times Good University Guide 2019*, with 89% of Lancaster students going into professional work or further education after graduation
- Enhance your degree major by studying minor subjects too
- Study on a safe campus surrounded by beautiful English countryside
- Fantastic sports and recreation facilities
- The 2018 National Student Survey reveals that 88% of Lancaster University students are satisfied overall – compared with a national average of 83%. This puts Lancaster in the top 10 of UK universities

*In *The Times and Sunday Times Good University Guide 2018.*

By train to:
- Manchester: 1 hour
- Liverpool: 1 hour
- London: 2 hours 30 minutes

Nearest airport:
- Manchester

Triple top **10** — **A top university in three major UK league tables**
(Guardian University Guide 2019, Complete University Guide 2019 and The Times and Sunday Times Good University Guide 2019)

Top 10 UK subject rankings include:

- **1st** CRIMINOLOGY
- **2nd** SOCIAL WORK
- **3rd** MARKETING
- **3rd** SOCIOLOGY
- **4th** COMMUNICATIONS AND MEDIA STUDIES
- **7th** ACCOUNTING AND FINANCE

(The Times and The Sunday Times Good University Guide 2019 and The Complete University Guide 2019)

Average living costs

ITEM	AVERAGE COST LANCASTER
Meal, inexpensive restaurant	£12.00
Cappuccino	£2.61
Bottle of water (0.33 litre)	£0.98
Monthly travel pass (regular price)	£43.08
Petrol (1 litre)	£1.21
Monthly internet (60 Mbps, unlimited data, cable/ADSL)	£26.14
Fitness club monthly fee	£31.50
Cinema ticket	£8.62
Monthly rent for a city centre apartment with one bedroom	£545.00

Please note that all prices are approximations of averages sourced from numbeo.com/cost-of-living in January 2019 and are subject to change. Lancaster University benefits from a collegiate and campus learning and living environment and nearly all students will live on campus, many living costs are either included in accommodation fees or discounted to students on campus. (for example – cinema and fitness club membership) visit lancasterisc.com/about-us/accommodation for more information.

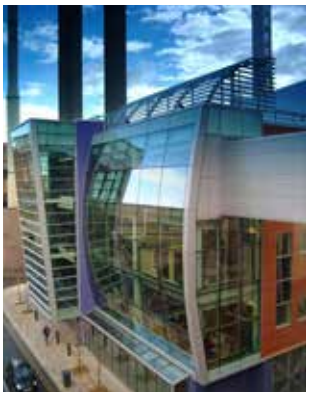
Leeds International Study Centre
for progression to the University of Leeds

The University of Leeds is a world top 100 university with a global reputation for research expertise and academic excellence.

Located at the Extentia Stand, part of Leeds Beckett University, the Leeds International Study Centre works in collaboration with the University of Leeds and Leeds Beckett University to prepare students from outside the UK for successful degree study. In addition, the University of Leeds has its own International Foundation Year, delivered on campus by the University. Depending on English language levels and academic achievement to date, students can choose to study either at the Leeds International Study Centre or select the University of Leeds International Foundation Year.
See page 51 for details.

The benefits for you

- Stimulating environment where you can get involved with research and make your own discoveries
- Opportunity to study discovery modules to broaden your learning and pursue new interests
- Outstanding academics who share your passion for your subject area
- Facilities that include new laboratories and lecture theatres, and one of the largest libraries in the UK
- One of the best and most active Student Unions in the country



By train to:
- Manchester: 1 hour
- Liverpool: 1 hour
- London: 2 hours 15 minutes

Nearest airports:
- Leeds-Bradford
- Manchester

University of Lincoln
International Study Centre

Based on the picturesque Brayford Pool marina, everything students need is either on campus or a short walk away.

The University was awarded gold in the Teaching Excellence Framework 2017, and was judged as delivering consistently outstanding teaching and learning for its students. The University of Lincoln scored higher than the sector average in every question category of the *National Student Survey 2018*. Several of the courses were rated number one in the UK for aspects of their subject areas including Engineering, Sociology and Tourism.

The benefits for you:

› Strong links with global companies such as Siemens
› Access to industry standard facilities and technology, such as the Engineering Hub and Isaac Newton Building
› Benefit from hands-on experience
› Learn from world-class academics, professors and visiting speakers
› Live in the heart of a historic city, Lincoln was named as one of Britain's 20 Best Cities in 2017 by *The Telegraph*

By train to:
London: 2 hours 15 minutes

Nearest airports:
Manchester
Heathrow

Ranked
7th in the UK for overall student satisfaction
(National Student Survey 2018)

Ranked
22nd in the UK
(The Guardian University Guide 2019)

96%
of Lincoln graduates were in **work** or **further study six months after finishing their course** with more than **80% in graduate level roles**
(Destination of Leavers from Higher Education Survey 2016/17)

Gold rating
in the Teaching Excellence Framework
(Teaching Excellence Framework 2017)

Royal Holloway
International Study Centre

Royal Holloway combines the finest British education, heritage and culture with international networks in academia, research and business, introducing graduates to the world stage with a globally recognised degree.

Located close to Heathrow Airport on the university's picturesque parkland campus in Egham in Surrey, Royal Holloway is ranked top 20 in the UK and top 50 in the world for international outlook (*Times Higher Education World University Rankings 2019*) and is ranked 24th in the UK (*The Times and Sunday Times Good University Guide 2019*).

The benefits for you

› Feel welcomed by a British university with a truly global atmosphere
› Enjoy life on this stunning campus with historic buildings and modern facilities
› Explore local attractions such as Windsor Castle, or take the short train ride to central London
› International travel is easy as the UK's biggest airport, London Heathrow, is just a short distance from the campus
› Study at one of the UK's leading research-intensive universities, home to some of the world's foremost authorities in the sciences, arts, business, economics and law

By train to:
Central London: 40 minutes

Nearest airport:
London Heathrow: 7 miles

Ranked
24th in the UK
(The Times and The Sunday Times Good University Guide 2019)

Top
50 in the world for international outlook

The University of Sheffield
International College

The University of Sheffield offers high-quality academic programmes taught in a distinctive environment that is especially welcoming and supportive to international students.

The tailored curriculum will make sure you are perfectly prepared for onward success. Everything the University of Sheffield does is based on one simple but powerful idea: they won't settle for ordinary. That's how they've become one of the top 100 universities in the world. That's how every one of their academic departments is a centre of excellence. And that's why they have an outstanding track record for research and partnerships with industry.

The benefits for you

› On successful completion of your foundation programme join The University of Sheffield and graduate with a world class, internationally recognised degree
› Both the city and University pride themselves on extending a warm welcome to international students
› Enjoy all the benefits of city life, but pay lower living costs than in Manchester or London
› Consistently ranked in the top 5 for student experience in the UK, so you can be confident of enjoying your time here

By train to:
London: 2 hours
Manchester: 1 hour

To progress, students need to achieve the required grades. As a guideline, students need to achieve between 60% and 70% in English and between 60% and 65% overall (depending on their chosen degree). For full and up to date information, visit usic.sheffield.ac.uk

The University of Sheffield International College

Pre-Masters Programme entry requirements

A number of Sheffield's postgraduate degree programmes require applicants to have previous experience in particular subject areas before they may apply to the Pre-Masters Programme. The table below lists some of the postgraduate degrees where subject-specific or other experience is required, prior to entry to the Pre-Masters Programme. If it is not listed, the requirement for the postgraduate degree is any subject discipline. For a full list and up-to-date information, visit the website.

Title	Required first degree discipline
LLM (Corporate & Commercial Law)	Degree usually in law or subject with sufficient legal component. Other qualifications will be considered as will applications from candidates with work experience in a relevant field.
LLM (European Law)	Degree usually in law or subject with sufficient legal component. Other qualifications will be considered as will applications from candidates with work experience in a relevant field.
LLM (International Law & Global Justice)	Degree usually in law or subject with sufficient legal component. Other qualifications will be considered as will applications from candidates with work experience in a relevant field.
MA American History	History degree or other humanities or social science discipline.
MA Archaeology	Degree in an arts, humanities or science subject is usually required. Your interest in and knowledge of archaeological matters are more important than the specific discipline of your undergraduate degree.
MA Architectural Design	Portfolio required, as well as a degree or an equivalent qualification related to design in the built environment, such as architecture, landscape architecture or town planning others can be considered with sufficient design experience.
MA Broadcast Journalism	Previous journalistic experience is not required but excellent writing and communication skills are essential, plus wide general knowledge and an appetite for investigation. Good computing and word processing skills are desirable.
MA Cities & Global Development	Degree in any subject.
MA Contemporary China	Any subject discipline. Also suitable for native speakers of Chinese.
MA Contemporary Japan	Any subject discipline. Also suitable for native speakers of Japanese.
MA Digital Media & Society	Degree in a relevant discipline - this is very broad, with some flexibility allowed.
MA Early Childhood Education	Applicants with a degree in a non-relevant subject are acceptable with a minimum of 12 months relevant work experience. Relevant work experience can include (but is not limited to): Working in the community, Educational publishing, Higher and Further Education Institutions (including English Language teaching), Local Authorities, Ministries of Education/Government Departments, NGOs, Professional Associations and Schools (Nursery, Primary and Secondary).
MA Early Modern History	History degree or other humanities or social science discipline.
MA Education	Degree in any subject.
MA Global Journalism	Previous journalistic experience is not required but excellent writing and communication skills are essential, plus wide general knowledge and an appetite for investigation. Good computing and word processing skills are desirable.
MA Global Political Economy	Degree in relevant social science or arts and humanities subject including: American Studies, Anthropology, Architecture, Classics, Development, Economics, Education, English Literature, Gender Studies, Geography, History, International Relations, Journalism, Law, Management, Modern Languages, Peace Studies, Philosophy, Politics, Security Studies, Sociology, Town and Regional Planning, Religion and Theology, and War Studies.
MA Globalising Education: Policy & Practice	Degree in related field including: Architecture, Economics, Education, Geography, International Relations, Journalism, Law, Management, Philosophy, Politics, Sociology, Town and Regional Planning, Archaeology, History, Philosophy, Music, Biblical Studies, and Languages.
MA Intercultural Communication	Degree in a language related discipline (such as linguistics, literature or a language).
MA International Criminology	Degree usually in law, social sciences or humanities, such as in Criminology, Law, Sociology, Psychology or Political Science. Other qualifications will be considered and relevant work experience will be taken into consideration alongside qualifications.
MA International Development	Degree in geography or a related subject in one of the following areas: Architecture, Development Studies, Economics, Education, Environment, English, Geography, International Relations, Journalism, Law, Literature, Management, Philosophy, Politics, Sociology and Urban Studies and Planning.
MA International Political Communication	Previous journalistic experience is not required but excellent writing and communication skills are essential, plus wide general knowledge and an appetite for investigation. Good computing and word processing skills are desirable.
MA International Politics	Degree in relevant social science or arts and humanities subject including: American Studies, Anthropology, Architecture, Classics, Development, Economics, Education, English Literature, Gender Studies, Geography, History, International Relations, Journalism, Law, Management, Modern Languages, Peace Studies, Philosophy, Politics, Security Studies, Sociology, Town and Regional Planning, Religion and Theology, and War Studies.
MA Journalism	Previous journalistic experience is not required but excellent writing and communication skills are essential, plus wide general knowledge and an appetite for investigation. Good computing and word processing skills are desirable.

The University of Sheffield International College

Pre-Masters Programme entry requirements

Title	Required first degree discipline
MA Law (two-year qualifying law degree)	Any subject discipline. All degrees considered other than UK Law.
MA Magazine Journalism	Previous journalistic experience is not required but excellent writing and communication skills are essential, plus wide general knowledge and an appetite for investigation. Good computing and word processing skills are desirable.
MA Medicine in Society	Degree in any subject.
MA Medieval History	Degree in History (or related subject).
MA Modern History	Degree in History (or related subject).
MA Multilingual Information Management	Any subject discipline. An advanced working knowledge of 2 languages, (CEFR B1/ B2), one of which should be English. Expected to be familiar with standard business software.
MA Music Management	Music or a combined degree with a substantial music component and allows other subjects to be considered by department on an individual basis.
MA Politics, Governance and Public Policy	Degree in any subject.
MA Psychology & Education	Degree in any subject.
MA Psychology of Music	Degree in Music or Psychology (or a related subject).
MA Sonic Arts	Music or a combined degree with a substantial music component and allows other subjects to be considered by department on an individual basis if there is relevant experience.
MA Urban Design	A portfolio and a degree related to design in the built environment, such as architecture, landscape architecture and town planning and says other subjects are considered in applicants with design experience.
MBA	Any degree subject + 3 years work experience with some managerial experience.
MMet Advanced Metallurgy	Degree in materials, metallurgy, chemistry, physics or a related engineering subject.
MPH International Development	Degree in geography or a related subject including: Architecture, Development Studies, Economics, Education, Environment, English, Geography, International Relations, Journalism, Law, Literature, Management, Philosophy, Politics, Sociology, Urban Studies and Planning, Biology, Dentistry, Medicine and Public Health others can be considered where if there is relevant work experience.
MRes Ecology and Environment	Degree in Bioscience or related subject including: Natural Resource Management, Agriculture or similar, provided there has been an independent research project component.
MRes Evolution and Behaviour	Degree in Bioscience or related subject including: Natural Resource Management, Agriculture or similar, provided there has been an independent research project component.
MRes Plant and Microbial Biology	Degree in Bioscience or related subject including: Natural Resource Management, Agriculture or similar, provided there has been an independent research project component.
MSc (Eng) Advanced Software Engineering	Degree in Computer Science, Software Engineering or a closely related subject.
MSc (Eng) Biological & Bioprocess Engineering	Degree in Science, Technology or Engineering.
MSc (Eng) Ceramic Science & Engineering	Degree in Materials, Metallurgy, Chemistry, Physics or a related Engineering subject.
MSc (Eng) Data Communications	Degree in Electronic Engineering, Computer Science or Physics field.
MSc (Eng) Electronic & Electrical Engineering	Degree in Electronic/ Electrical Engineering, Computer Engineering, Communications Engineering, Control Systems Engineering, Computer Science, Information Engineering, Information Technology, Physics (only if have UG 2nd Year Engineering Maths equivalent).
MSc (Eng) Environmental & Energy Engineering	Degree in Science, Technology or Engineering.
MSc (Eng) Nuclear Materials Engineering & Science	Degree in Materials, Metallurgy, Chemistry or a related Engineering or Science subject.
MSc (Eng) Polymers & Polymer Composite Science & Engineering	Degree in Chemistry, Chemical Physics, Chemical Engineering, Materials or a related subject.
MSc (Eng) Process Safety & Loss Prevention	Degree in Science, Technology or Engineering or a related subject.
MSc (Eng) Semiconductor Photonics & Electronics	Degree in Electronic and Electrical Engineering, Physics, Maths and other branches of engineering involving significant mathematical competence with others considered with sufficient industry experience.
MSc (Eng) Steel Construction	Degree in civil or structural engineering or other appropriate engineering or science subject and will consider professional qualifications and work experience on an individual basis.
MSc (Eng) Structural & Concrete Engineering	Degree in civil or structural engineering or other appropriate engineering or science subject and will consider professional qualifications and work experience on an individual basis.
MSc (Eng) Structural Engineering	Degree in civil or structural engineering or other appropriate engineering or science subject and will consider professional qualifications and work experience on an individual basis.
MSc (Eng) Wireless Communication Systems	Electronic Engineering, Computer Science or a related subject.
MSc (Res) Aerodynamics & Aerostructures	Mechanical Engineering or a related subject. Qualifications in other science/engineering subjects such as maths or physics and/or relevant professional experience, will be considered.
Msc (Res) Chemistry	Background in Chemistry.
MSc (Res) Cognitive and Computational Neuroscience	Degree in Life Sciences, Physical Sciences or related subject including: Psychology, Medicine, Mathematics, Engineering, Computer Science.
MSc (Res) Particle Physics	Degree in Physics.

Pre-Masters Programme entry requirements

Title	Required first degree discipline
MSc (Res) Quantum Photonics and Nanomaterials	Degree in Physics.
MSc (Res) in Translational Oncology	Degree in Biology related subject.
MSc Acquired Communication Disorders	Degree in Speech and Language Therapy/Pathology, Linguistics, Education, Psychology or Computer Sciences.
MSc Advanced Computer Science	Degree in Computer Science, Computer Engineering, Software Engineering or Computing and Mathematics.
MSc Advanced Control & Systems Engineering	Degree in a Engineering or Science related subject.
MSc Advanced Mechanical Engineering	Mechanical engineering or a related subject. Qualifications in other science/engineering subjects such as maths or physics and/or relevant professional experience, will be considered.
MSc Applied GIS	Any subject discipline.
MSc Biodiversity and Conservation	Degree in Life Sciences, Natural Resources Management (or related subject).
MSc Biological Sciences	Degree in Life Sciences, Natural Resources Management (or related subject).
MSc Biomaterials & Regenerative Medicine	Degree in materials, metallurgy, chemistry, physics or a related engineering subject and degree in dentistry or medicine is also acceptable.
MSc Biomedical Science	Degree in Bioscience or Clinical Science related subject including: General Biology, Zoology, Genetics, Biochemistry, Biotechnology, Medicine, Dentistry, Pharmacology, Pharmacy, Microbiology, Medical Laboratory Sciences.
MSc Business Finance & Economics	Economics background required. Students with degrees in related subjects with some economics and a strong mathematics and/ or statistics component also considered. A good understanding of the following subjects is required: Mathematical Economics, Quantitative Methods, Econometrics, Statistical Methods, Macroeconomic Analysis, Microeconomics Analysis. Grades of around 75% in the key subjects we list above, but no grades below 70%.
MSc Chemistry	Background in Chemistry.
MSc Cities & Global Development	Degree in any subject.
MSc Cognitive & Computational Neuroscience	Degree in a life science or mathematical/physical science.
MSc Cognitive Neuroscience and Human Neuroimaging	Degree in Life Sciences, Physical Sciences or related subject including: Psychology, Medicine, Mathematics, Engineering, Computer Science.
MSc Computer Science with Speech & Language Processing	Computer science, engineering, linguistics, mathematics or psychology. Look for: A level maths – complex numbers, linear algebra, basic probability theory, calculus. Programming experience not essential, but an interest in computation is essential.
MSc Creative & Cultural Industries Management	Degree in any subject.
MSc Data Analytics	Degree in a numerate discipline (mathematics, economics, accounting, engineering, physics, chemistry) and A-level mathematics.
MSc Data Science	Any subject discipline. Work in an information service, IT/computing environment or other relevant work experience is an advantage.
MSc Digital Architecture & Design	Degree or an equivalent qualification. We welcome applicants with design experience in areas such as architecture, urban design, landscape architecture, interaction design, architectural/environmental engineering, structural/material engineering, robotics.
MSc Digital Library Management	Any subject discipline. Work in an information service, IT/computing environment or other relevant work experience is an advantage.
MSc (Eng) Earthquake & Civil Engineering Dynamics	Degree in civil or structural engineering or other appropriate engineering or science subject and will consider professional qualifications and work experience on an individual basis.
MSc East Asian Business	Any subject discipline. Suitable for native speakers of Chinese, Korean or Japanese.
MSc Economics	Degree in economics usually with mathematics and statistics components also consider students with very good degrees in related subjects with strong economics, finance (not accounting finance), mathematics and/ or statistics components.
MSc Economics & Health Economics	Degree in economics usually with mathematics and statistics components also consider students with very good degrees in related subjects with strong economics, finance (not accounting finance), mathematics and/ or statistics components.
MSc Economics & Public Policy	Degree in economics usually with mathematics and statistics components also consider students with very good degrees in related subjects with strong economics, finance (not accounting finance), mathematics and/ or statistics components.
MSc Entrepreneurship & Management	Any subject discipline.
MSc Environmental Change & International Development	Degree in geography or a related subject including: Architecture, Development Studies, Economics, Education, Environment, English, Geography, International Relations, Journalism, Law, Literature, Management, Philosophy, Politics, Sociology, Urban Studies and Planning, Biological Science and Environmental Science with others to be considered by department if there is relevant work experience.
MSc Finance & Accounting†	Degree in any subject.
MSc Financial Economics	Degree in economics usually with mathematics and statistics components also consider students with very good degrees in related subjects with strong economics, finance (not accounting finance), mathematics and/or statistics components.

†Due to high demand, recruitment to this programme is subject to closure earlier than the standard application deadlines. Please refer to the website for up-to-date availability.

The University of Sheffield International College

Pre-Masters Programme entry requirements

Title	Required first degree discipline
MSc Global Marketing Management	Degree in any subject.
MSc Genomic Approaches to Drug Discovery	Degree in Bioscience or Clinical Science related subject including: General Biology, Zoology, Genetics, Biochemistry, Biotechnology, Medicine, Dentistry, Pharmacology, Pharmacy, Microbiology, Medical Laboratory Sciences.
MSc Human Anatomy & Education	Degree in Molecular Biology or related subject including: Biochemistry, Genetics, Biotechnology, Microbiology.
MSc Human and Molecular Genetics	Degree in Molecular Biology or related subject including: Biochemistry, Genetics, Biotechnology, Microbiology.
MSc Human Resource Management	Degree in any subject.
MSc Information Management	Any subject discipline. Work in an information service, IT/computing environment or other relevant work experience is an advantage.
MSc Information Systems	Any subject discipline. Work in an information service, IT/computing environment or other relevant work experience is an advantage.
MSc Information Systems (PE)	Any subject discipline. Work in an information service, IT/computing environment or other relevant work experience is an advantage.
MSc Information Systems Management	Degree in economics usually with mathematics and statistics components also consider students with very good degrees in related subjects with strong economics, finance (not accounting finance), mathematics and/or statistics components.
MSc International Finance & Economics	Economics background required. Students with degrees in related subjects with some economics and a strong mathematics and/or statistics component also considered. A good understanding of the following subjects is required: Mathematical Economics, Quantitative Methods, Econometrics, Statistical Methods, Macroeconomic Analysis, Microeconomics Analysis. Grades of around 75% in the key subjects we list above, but no grades below 70%, BBA (Bachelor of Business Admin) or Bachelor of Commerce degrees are not acceptable.
MSc International Management	Degree in any subject.
MSc International Management & Marketing	Degree in any subject.
MSc International Social Change and Policy	Degree in a Social Sciences discipline.
MSc Leadership & Management	Degree in any subject.
MSc Logistics & Supply Chain Management	Degree in any subject.
MSc Management	Degree in any subject.
MSc Management (International Business)	Degree in any subject.
MSc Marketing Management Practice	Degree in any subject.
MSc Materials Science & Engineering	Degree in materials, metallurgy, chemistry, physics or a related engineering subject.
MSc Mechanical Engineering & Industrial Management	Mechanical engineering or a related subject. Qualifications in other science/engineering subjects such as maths or physics and/or relevant professional experience, will be considered.
MSc Molecular & Cell Basis of Human Disease	Degree in Bioscience or Clinical Science related subject including: General Biology, Zoology, Genetics, Biochemistry, Biotechnology, Medicine, Dentistry, Pharmacology, Pharmacy, Microbiology, Medical Laboratory Sciences.
MSc Molecular Biology and Biotechnology	Degree in Molecular Biology or related subject including: Biochemistry, Genetics, Biotechnology, Microbiology.
MSc Money, Banking & Finance	Degree in economics usually with mathematics and statistics components. Also consider students with very good degrees in related subjects with strong economics, finance (not accounting finance), mathematics and/or statistics components.
MSc Polymers for Advanced Technologies	Degree in Chemistry, Chemical Physics, Chemical Engineering, Materials or a related subject.
MSc Practical Entomology	Degree in Bioscience or a related subject including: Veterinary Science, Pest Management, Agricultural Entomology.
MSc Psychological Research Methods	Degree in Psychology or a related subject.
MSc Psychological Research Methods with Advanced Statistics	Degree in Psychology or a related subject. Also need to provide evidence of undergraduate training in statistics for Psychology.
MSc Real Estate	Degree in related field including: Architecture, Geography, Urban Studies, Planning, Economics, Engineering, Construction or similar subjects. Commitment to critical analysis of planning and development is important. Accept graduates from Design and Engineering backgrounds, but they should be aware that these are Social Science courses. Work experience of Urban Planning and/or surveying is desirable though not essential.
MSc Real Estate Planning & Development	Degree in related field including: Architecture, Geography, Urban Studies, Planning, Economics, Engineering, Construction or similar subjects. Commitment to critical analysis of planning and development is important. Accept graduates from Design and Engineering backgrounds, but they should be aware that these are Social Science courses. Work experience of Urban Planning and/or surveying is desirable though not essential.
MSc Robotics	Degree in a numerate subject such as engineering, mathematics or physical sciences. To thrive in this degree you'll need to have excellent mathematical notation and basic computer programming skills.
MSc Science Communication	Degree in Science or a related subject including: Engineering, Maths.
MSc Sensory Neuroscience	Minimum 2:1 Degree in an appropriate Science Subject.

Pre-Masters Programme entry requirements

Title	Required first degree discipline
MSc Software Systems & Internet Technology	Degree in a numerate subject such as Engineering or Sciences. Some experience of programming is required. Experience of an `object orientated language' preferred (e.g. Java, or possibly C++, C-sharp).
MSc Solar Cell Technology	Degree in Physical Science or Engineering.
MSc Speech Difficulties	Degree in Speech and Language Therapy/Pathology, Linguistics, Education, Psychology or Computer Sciences.
MSc Statistics	Degree with substantial mathematical and statistical components or a pass at an equivalent level in the Graduate Certificate.
MSc Statistics with Medical Applications	Degree in a Mathematical related subject and have taken modules in Probability Theory, Mathematical Statistics and Applied Statistics.
MSc Stem Cell & Regenerative Medicine	Degree in Bioscience or Clinical Science related subject including: General Biology, Zoology, Genetics, Biochemistry, Biotechnology, Medicine, Dentistry, Pharmacology, Pharmacy, Microbiology, Medical Laboratory Sciences.
MSc Sustainable Architecture Studies	Portfolio and degree related to architecture, building science, engineering, construction, planning, building management or related built environment disciplines.
MSc Sustainable Architecture Technologies	Degree in the Built Environment or design related subject including: Architecture, Landscape Architecture, Town Planning.
MSc Systems Neuroscience	Degree in Life Sciences, Physical Sciences or related subject including: Psychology, Medicine, Mathematics, Engineering, Computer Science.
MSc Translational Neuropathology	Degree in Biology related subject.
MSc Translational Neuroscience	Degree in Biology related subject.
MSc Urban and Regional Planning	Suitable for a wide range of backgrounds, including but not restricted to subject areas such as architecture, landscape architecture, geography, urban studies, planning, economics, construction, law, politics, sociology, environmental studies or other similar subjects, as well as non-cognate disciplines such as history, literature, science and engineering.
MSc Urban Design & Planning	Degree in subject areas including: Architecture, Landscape Architecture, Geography, History, Urban Studies, Planning, Economics, Construction, Law, Politics, Sociology, Environmental Studies, Literature, Science and Engineering or other similar subjects.

University of Strathclyde
International Study Centre

Established as 'a place of useful learning', the University of Strathclyde is home to one of the largest best-equipped engineering faculties in the UK, the triple-accredited Strathclyde Business School and the multi award-winning law clinic in Scotland.

The University of Strathclyde aims to provide students with excellent and innovative teaching, learning technologies and facilities. The University is investing £650 million in its campus over 10 years, including a £31 million investment in a Sport, Health and Wellbeing facility opened in 2018.

The benefits for you

› Experience being in the heart of Glasgow, one of the most dynamic and cultural cities in the UK
› Gain a head start on other graduates by gaining real-world experience through your degree programme
› As a business or engineering graduate, you will be sought after by recruiters
› Participate in the research-led study culture of excellence that makes up Strathclyde's vibrant curriculum
› Strathclyde graduates go on to work for leading organisations including Rolls-Royce, Goldman Sachs and KPMG

By train to:
Edinburgh: 50 minutes

By flight to:
London: 75 minutes
Paris: 110 minutes

Nearest airport:
Glasgow

Average living costs

ITEM	AVERAGE COST GLASGOW
Meal, inexpensive restaurant	£12.00
Cappuccino	£2.53
Bottle of water (0.33 litre)	£0.70
Monthly travel pass (regular price)	£52.00
Petrol (1 litre)	£1.26
Monthly internet (60 Mbps or more, unlimited data, cable/ADSL)	£29.39
Fitness club monthly fee	£24.27
Cinema ticket	£10.00
Monthly rent for a city centre apartment with one bedroom	£624.74

Please note that all prices are approximations of averages sourced from numbeo.com/cost-of-living in February 2019 and are subject to change.

A 5-star rated university

(QS Stars University Ratings 2017-20)

Top 10 UK rankings include:

1st ACCOUNTING AND FINANCE

1st PHARMACY AND PHARMACOLOGY

1st COMMUNICATION AND MEDIA STUDIES

2nd MARKETING

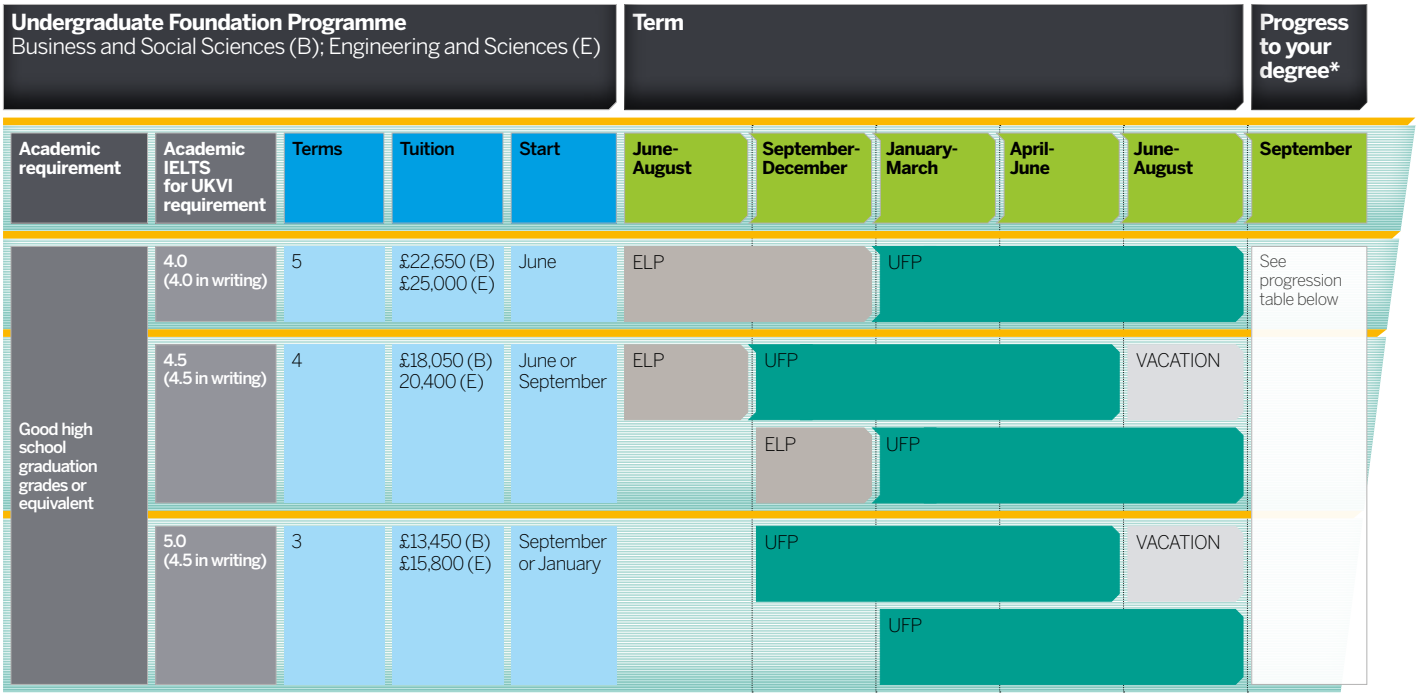
6th ELECTRICAL AND ELECTRONIC ENGINEERING

7th CHEMICAL ENGINEERING

(The Complete University Guide League Tables 2019)

University of Strathclyde International Study Centre

Undergraduate Foundation Programme



ELP English Language Preparation
UFP Undergraduate Foundation Programme (International Foundation Year)

*Progression will be dependent on reaching the required grades. Degrees in Scotland are typically four-year courses so students normally progress to year two. Should a student not reach the grades required for progression to year two, there may be the option to progress to year one. For a full and up-to-date list of degrees available and the grades required, visit www.strath.ac.uk/isc

Undergraduate Foundation Programme

Degree Programme	Award
BUSINESS AND SOCIAL SCIENCES PATHWAY	
Faculty of Humanities and Social Sciences	
Education & Law	BA (Hons)
Education & Politics & International Relations	
Education & Psychology	
Education & Sport	
Education & TESOL (Only 15 places available)	
English Law (3-year degree)†	LLB (Hons)
Law & Economics	BA (Hons)
Law & Politics & International Relations	
Law & Psychology	
Philosophy, Politics & Economics (3-year degree)†	
Politics & International Relations	
Politics & International Relations & Economics	
Politics & International Relations & Psychology	
Primary Education (Interview is required for progression. Students need to join the Protecting Vulnerable Groups, PVG Scheme)†	
Psychology	
Psychology & Economics	
Speech & Language Pathology (Requires referral. Interview may be required for progression and degree includes work placement)†	BSc (Hons)
Sport & Physical Activity†	
Strathclyde Business School	
Accounting†	BA (Hons)
Business Administration (3-year degree)†	BBA (Hons)
Business Analysis & Technology	BA (Hons)
Business Enterprise	
Business Law & Business Analysis & Technology

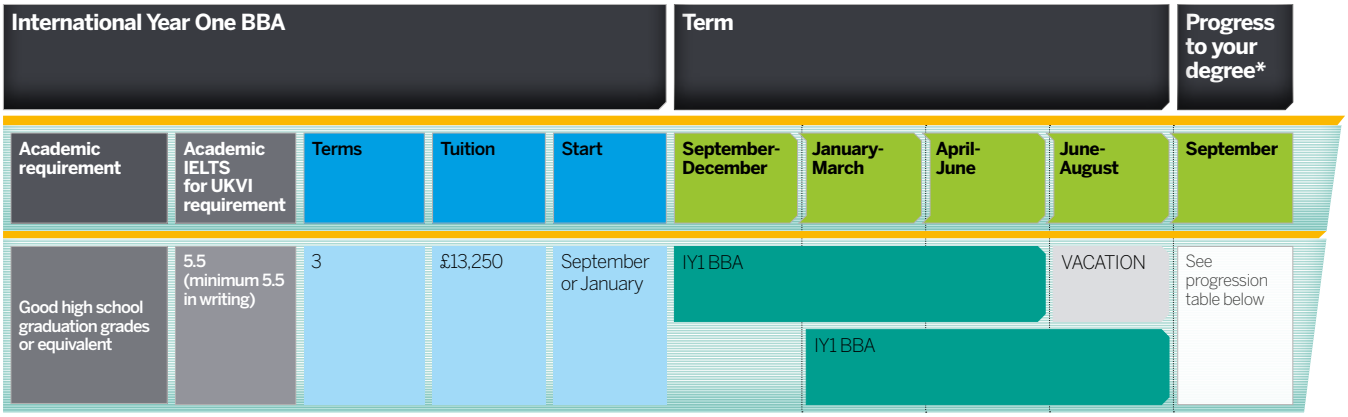
† Progression to year 1 of this degree.
‡ Students enter year 2 and study 4 years at the University.
^ Portfolio and pre-approval required before students can receive an offer.
# University interview and pre-approval required before students can receive an offer.
+ If students do not achieve the grades required for progression to year 2, they may be able to progress to year 1 of these degrees.

To progress, students need to achieve the required grades for their chosen degree. As a guideline, students progressing to year two at the University need to achieve between 60-75% in English, and 60% overall. Some exceptions may apply. For full and up-to-date information, visit www.strath.ac.uk/isc

University of Strathclyde International Study Centre

International Year One BBA



IY1 International Year One BBA

*Upon completion of the International Year One BBA and reaching the required grades, students may proceed to the second year of this three-year degree at the University of Strathclyde. For a full and up-to-date list of degrees available and the grades required, visit www.strath.ac.uk/isc

International Year One BBA

* Students must have relevant degree or direct experience living or working with individuals on the autism spectrum. Statement detailing experience required on application.
^ In addition to English, students must be proficient in one of the following languages: Chinese, German, Spanish, Italian or French. Applicants complete written and oral aptitude tests.
† Portfolio and pre-approval required before students can receive an offer.
‡ If students are not allocated an industrial placement, they may be considered for the Optical Technologies MSc.
# Pre-approval required before students can receive an offer.

To progress, students need to achieve the required grades for their chosen degree. As a guideline, students need to achieve between 60-80% in English, and 60% overall. For full and up-to-date information, visit www.strath.ac.uk/isc

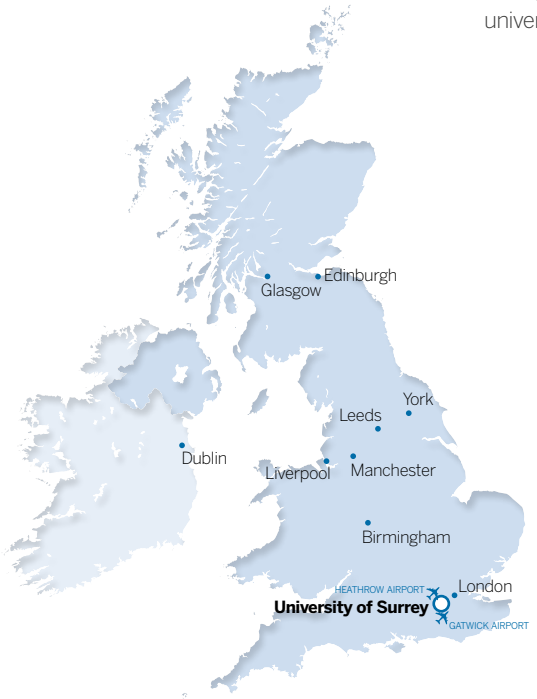
University of Surrey
International Study Centre

Surrey is one of the UK's leading universities, ranked in the top 20 UK universities in the Complete University Guide 2019.

The University offers one of the most coveted professional training placement programmes in the world, with over 2,300 professional placement training partners. 93% of Surrey's graduates are in work (or further education) six months after they graduated (*Higher Education Statistics Agency 2016*).

The benefits for you

› Enjoy the prestige of graduating from one of the UK's top-ranked universities
› Living in Surrey gives you the best of both worlds: fresh air, countryside and a vibrant town, with easy access to the excitement of London
› Build your real-world skills through the Professional Training placement programme
› Access to excellent facilities, such as our library and learning centre and Surrey Sports Park, will enhance your university learning experience.



By train to:
London: 34 minutes

Nearest airports:
London Gatwick
London Heathrow

Ranked in the **Top 20** in the UK *(The Complete University Guide 2019)*

Top 10 UK subject rankings include:

1st CRIMINOLOGY

2nd FOOD SCIENCE

3rd ELECTRICAL AND ELECTRONIC ENGINEERING

5th CHEMICAL ENGINEERING

5th HOSPITALITY, LEISURE, RECREATION AND TOURISM

7th CHEMISTRY

(The Guardian University Guide 2019)

Average living costs

ITEM	AVERAGE COST GUILDFORD
Meal, inexpensive restaurant	£12.00
Cappuccino	£2.59
Bottle of water (0.33 litre)	£0.71
Monthly travel pass (regular price)	£76.09
Petrol (1 litre)	£1.24
Monthly internet (60 Mbps or more, unlimited data, cable/ADSL)	£41.50

PROFESSIONAL TRAINING PLACEMENTS

Professional Training Placement opportunities are available on almost all progression degrees, students can opt to take a four year degree which includes a Professional Training Placement Year when they progress to the University. Placements usually take place after the second year (or, in some cases, third year) of undergraduate study.

Visit **surrey.ac.uk/isc** for full information.

To progress, students need to achieve the required grades. As a guideline, students need to achieve between 50% and 70% in English and between 65% and 70% overall (depending on their chosen degree). There are also additional entry requirements for BVMSci Veterinary Medicine and Science and BSc (Hons) Nutrition & Dietetics degree, including but not limited to suitable applicants being invited to an interview and offers made based on interview performance. For full and up to date information, visit surrey.ac.uk/isc

University of Sussex
International Study Centre

Sussex has been at the forefront of change since it was founded in 1961. The opportunity to learn at Sussex gives you the opportunity to change the world.

Sussex is a highly-ranked and forward-thinking university with a strong reputation for innovation and inspiration. As a research-led university, Sussex attracts leading academics who will inspire you to make your education count. Sussex has a vibrant campus community in a fantastic location within a national park but just nine minutes by train from Brighton.

The benefits for you

› Teaching underpinned by research, so you will be at the forefront of knowledge in your subject
› Inspiring degrees taught by some of the best university teachers and researchers in the UK
› Modern campus with fantastic labs and facilities, surrounded by a beautiful national park
› Inspiring location, close to the vibrant city of Brighton, famous for its seafront, culture and entertainment

By train to:
London: 1 hour

Nearest airports:
London Gatwick
London Heathrow

Ranked
1st in the world for Development Studies
(QS World University Rankings by Subject 2019)

University College Dublin
International Study Centre

Founded in 1854, University College Dublin is Ireland's global university.

Many degrees offer work placement opportunities and the University's Career Development Centre has links with over 1,200 multinational companies in Dublin. You can start your career here after you graduate as Ireland is the only native English-speaking European country to offer a one-year postgraduate work visa to students from outside the EU/EEA.

The benefits for you

› Fantastic graduate employment opportunities through the University's links with 1,200 multinationals
› Postgraduate work visa for international students
› Dublin is consistently voted in the *QS Best Student Cities* in the world rankings
› UCD's Business School holds the triple crown of accreditation (*AACSB, EQUIS, AMBA*)

Nearest airport:
Dublin

SCIENCE
The UCD Science degree is not a "General Science" degree. Students graduate with a BSc degree in one of 22 different subjects, for example, BSc Chemistry, BSc Mathematics, BSc Theoretical Physics.

***Business, Economics and Social Sciences degree duration is 3 years unless stated otherwise.
‡Engineering and Sciences degree duration is 4 years unless stated otherwise.
†3 year BSc + 2 year ME or 4 year BE.

To progress, students need to achieve the required grades. As a guideline, students need to achieve between 60% and 70% in English and between 60% and 70% overall (depending on their chosen degree). For full and up to date information, visit ucd.ie/isc

Further information

Information in this prospectus is correct at the time of production in May 2019, and is subject to change. Progression degrees and grades are subject to change and each university reserves the right to withdraw or to make alterations to courses and facilities if necessary. Should a programme or degree be cancelled, we will work in consultation with the student to offer a suitable alternative, subject to meeting the admission requirements for that programme. Accommodation provision is also subject to change.

Visit the individual International Study Centre websites for the latest information.
